

Notification of Hazardous Waste Site

United States
Environmental Protection
Agency
Washington DC 20460

This initial notification information is required by Section 103(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 and must be mailed by June 9, 1981.

Please type or print in ink. If you need additional space, use separate sheets of paper. Indicate the letter of the item which applies. *81 06 05*

MN#47

MNS-000-001-134

A Person Required to Notify:

Enter the name and address of the person or organization required to notify.

Name Inland Steel Mining Company
Street 1701 North 9th Avenue, P.O. Box 1001
City Virginia State MN Zip Code 55792

B Site Location:

Enter the common name (if known) and actual location of the site.

Name of Site Atkins Mine
Street SW-NW, 12-58-19 *SW 1/4 NW 1/4 Sec 12 Twp 58 R 19*
City KINNEY County St. Louis State MN Zip Code

C Person to Contact:

Enter the name, title (if applicable), and business telephone number of the person to contact regarding information submitted on this form.

Name (Last, First and Title) Ricciardi, Michael - Sr. Environmental Engr.
Phone (218) 749-8210

D Dates of Waste Handling:

Enter the years that you estimate waste treatment, storage, or disposal began and ended at the site.

From (Year) 1943 To (Year) 1944

E Waste Type: Choose the option you prefer to complete

Option 1: Select general waste types and source categories. If you do not know the general waste types or sources, you are encouraged to describe the site in Item I—Description of Site.

General Type of Waste:

Place an X in the appropriate boxes. The categories listed overlap. Check each applicable category.

- 1. ☐ Organics
- 2. ☐ Inorganics
- 3. ☐ Solvents
- 4. ☐ Pesticides
- 5. ☐ Heavy metals
- 6. ☐ Acids
- 7. ☐ Bases
- 8. ☐ PCBs
- 9. ☐ Mixed Municipal Waste
- 10. ☒ Unknown
- 11. ☐ Other (Specify)

Source of Waste:

Place an X in the appropriate boxes.

- 1. ☐ Mining
- 2. ☐ Construction
- 3. ☐ Textiles
- 4. ☐ Fertilizer
- 5. ☐ Paper/Printing
- 6. ☐ Leather Tanning
- 7. ☐ Iron/Steel Foundry
- 8. ☐ Chemical, General
- 9. ☐ Plating/Polishing
- 10. ☐ Military/Ammunition
- 11. ☐ Electrical Conductors
- 12. ☐ Transformers
- 13. ☐ Utility Companies
- 14. ☐ Sanitary/Refuse
- 15. ☐ Photofinish
- 16. ☐ Lab/Hospital
- 17. ☒ Unknown
- 18. ☐ Other (Specify)

Option 2: This option is available to persons familiar with the Resource Conservation and Recovery Act (RCRA) Section 3001 regulations (40 CFR Part 261).

Specific Type of Waste:

EPA has assigned a four-digit number to each hazardous waste listed in the regulations under Section 3001 of RCRA. Enter the appropriate four-digit number in the boxes provided. A copy of the list of hazardous wastes and codes can be obtained by contacting the EPA Region serving the State in which the site is located.

Notification of Hazardous Waste Site**Side Two****F Waste Quantity:**

Place an X in the appropriate boxes to indicate the facility types found at the site.

In the "total facility waste amount" space give the estimated combined quantity (volume) of hazardous wastes at the site using cubic feet or gallons.

In the "total facility area" space, give the estimated area size which the facilities occupy using square feet or acres.

Facility Type UNKNOWN

1. ☐ Piles
2. ☐ Land Treatment
3. ☐ Landfill
4. ☐ Tanks
5. ☐ Impoundment
6. ☐ Underground Injection
7. ☐ Drums, Above Ground
8. ☐ Drums, Below Ground
9. ☐ Other (Specify) _____

Total Facility Waste Amount

cubic feet _____

gallons _____

Total Facility Area

square feet _____

acres _____

G Known, Suspected or Likely Releases to the Environment: UNKNOWN

Place an X in the appropriate boxes to indicate any known, suspected, or likely releases of wastes to the environment.

☐ Known ☐ Suspected ☐ Likely ☐ None

Note: Items H and I are optional. Completing these items will assist EPA and State and local governments in locating and assessing hazardous waste sites. Although completing the items is not required, you are encouraged to do so.

H Sketch Map of Site Location: (Optional)

Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

I Description of Site: (Optional)

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

J Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".

Inland Steel Mining

June 5, 1981

United States Environmental Protection Agency
Region V
Sites Notification
Chicago, IL 60604

Gentlemen:

Enclosed are fifteen (15) completed Notification of Hazardous Waste Site forms. The notification forms for Inland Steel Mining Company - Minorca Mine, Jackson County Iron Company and Inland Lime and Stone Company have been completed based on actual knowledge of deposition of waste at the respective sites. The remaining twelve (12) notification forms have been completed with no conclusive past or present knowledge of any hazardous waste deposited at these sites. Rather the following assumptions have been developed in order to complete the forms:

Assumption #1: Certain present day mining operations use solvents and leaded greases during routine maintenance of mining equipment.

Assumption #2: Similar products were probably used during early mining operations.

Assumption #3: If spent residues from these products were generated, it is possible that they may have been deposited at the site rather than hauled away.

Therefore, the remaining twelve (12) notifications are submitted in accordance with the Superfund regulations since it is possible that hazardous wastes may have been deposited at these sites.

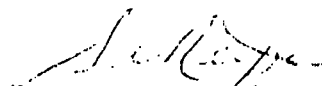

JUN 10 1981

US EPA

Page 2

In all probability it is highly unlikely that large amounts of hazardous waste were generated at these sites since these operations were very small with limited mining equipment compared to today's mining operations and equipment. However, if you have any questions on the notification forms, please do not hesitate to call Michael Ricciardi at (218) 749-8210.

Sincerely,

Samuel A. Reipas
Vice President - Operations
